

IoT weather station

YRKESHÖGSKOLAN
NOVIA

What does the weather station Measure?

Temperature

Windspeed

Humidity

Wind direction

Rainfall

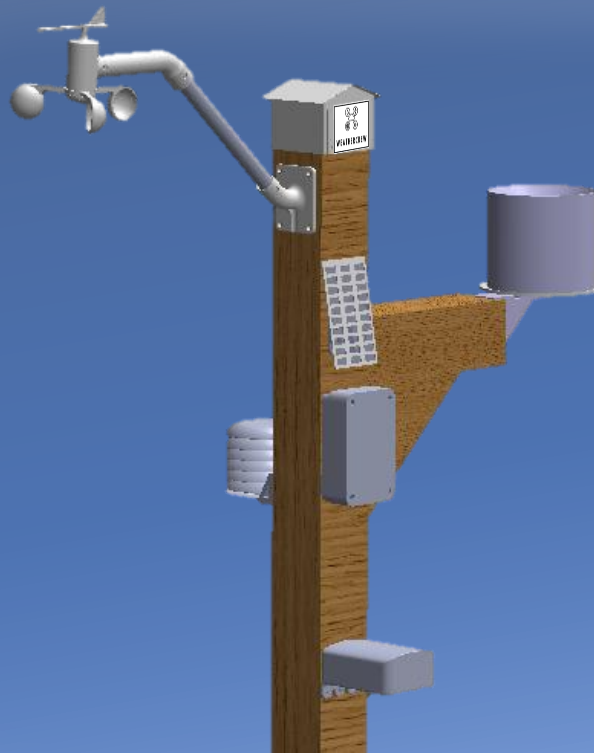

Solar powered

Project goal

Build a self-designed, low-cost, internet of things, low energy use, moveable weather station.

Who are we?

The weathercrew is a project team in an EPS project at Novia Yrkeshögskolan. We consist of Dutch and French students.

*Curious about what the weather is?
Check it out right now!*
