IoT weather station

WEATHERCREW

YRKESHÖGSKOLAN NOVIA

What does the weather station measure?

Temperature

Snowfall

Humidity

Windspeed

Rainfall

Wind direction

Project goal
Build a self-designed, low-cost, internet of things, low energy use, moveable weather station

Who are we?
The weathercrew is a project team in an EPS project at Novia Yrkeshögskolan. We consist of Dutch and French students.

Curious about what the weather is? Check it out right now!
